NON SILICONE DRESSING

Description: NON SILICONE DRESSING is a body shop safe dressing providing a high gloss for engine compartments, tires, rubber floor mats and more.

Applications

Automotive/Industrial/Marine
Used Car Reconditioning
Automotive Dealerships
Detailing
Body Shops
Auto Auctions

Benefits

Body Shop Safe
High Shine
Solvent Free
Economical
Ready to Use

Directions

Dilute 1:1 with water or use as ready-to-use for maximum shine.

For best results, clean the surface to be dressed prior to using.
Apply dressing by spraying directly on dry surface or apply with a cloth, sponge or applicator pad. Assure even application and allow to dry.

Interiors: Apply with a clean cloth, pad or sponge. Repeat as necessary
